

## Request Form for Sample Access

A sample fee will be charged on a per sample basis. Shipment will be paid by the investigator receiving the sample. Please consult the BioPortal fee schedule for details on cost.

1) Date of Request:

2) Names, addresses, telephone numbers, and emails of applicants:

3) Name, address, telephone, and email of Institutional Representative

4) Project Name:

5) Has this project been funded by a peer-review committee? If so, provide the statement of award and the name of the funding agency.

6) What sample type is requested (Plasma, Urine, Whole blood)?

7) What volume is requested?

8) Why can other sources of samples not be used?

9) If you do not require a full aliquot of plasma, who will you partner with to ensure that the entire aliquot is used, rather than discarded? If so, who is the proposed partner?

10) Do you agree to state in your acknowledgements of any publication: "The authors would like to acknowledge the participants of BioPortal of the Sir Mortimer B. Davis Jewish General Hospital of McGill University for providing data and biological samples for this research program". No authorship is requested by the BioPortal.

YES

NO

11) If you are proposing DNA genotyping, or sequencing of the host, please understand that all samples will have genome-wide genotyping and whole exome sequencing. Please justify why additional assays are required.

12) Do you agree to return all individual-level results to the BioPortal for widespread use by academic and industrial applicants at the time of submission of your paper?

YES

NO

13) Please provide a two-page summary of your proposal. References can be added using additional pages.
